

PRO TROWELS

Pro 600 with spinning ring

Central lifting point and engine protection

Pro-Tilt edging ring

Adjustable handle

Power trowels deliver the high specification surface finish required for today's flooring contracts. Excellence of engineering is essential to producing reliable machines that give the necessary results day after day. The NEW Pro and Pro-Tilt machines are built to the highest tolerances and offer operators more features to help them finish floors in comfort and with less effort.

Ride-on trowels are the economic solution for larger floors. A low centre of gravity improves stability, giving operators a smoother ride and better control.

Pro 600

- Perfect for new applications on small jobs and restricted areas
- Trowel right up to walls with the spinning guard ring
- Supplied complete with a float disc

Pro 900 & Pro 1200

- Engineered for long lasting precision performance
- Balanced for improved operator comfort and control
- Accurate blade pitch control with an easy turn handle
- Engine protection and central lifting point
- Safety release stops the trowel within $\frac{1}{4}$ of a turn

Pro-Tilt 900 & 1200

Based on the PRO 900 & 1200 with the following additional features

- Fast acting 'PRO TILT' lever operated blade pitch control
- Hip pad for extended operating times
- Adjustable handle height to suit individual operators
- Lift-up ring section that allows trowelling up to walls
- Chromed guard rings to help cleaning and durability

Ride-on 1200 & Ride-on ProDisc

- Ride-on 1200, a high productivity machine with synchronised overlapping blades
- Pro Disc, as the 1200 but with 2 x 900mm blades that don't overlap to allow use with float discs

Model	Petrol (Hp)	Diameter (mm)	Blade RPM		Weight (kg)	Dimensions (mm)		
			Max	Min		W	H	L
